ACTIVATING

RELATE + SUPPORT

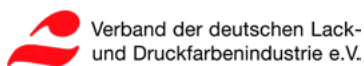

combines colour, emotion and function.

RELATE + SUPPORT provides a lively and versatile colour range, reflecting the requirements of our time. The trend report is a tool which both promotes and supports functional and sensuous design. The need for easily accessible and flexible solutions has emerged from fundamental social developments and experiences during the pandemic. In this sense, colour is not a superficial decision but one based on context.

RAL CLASSIC

FOR ALMOST 100 YEARS – A GLOBAL STANDARD FOR
MODERN COLOUR SCHEMES IN ARCHITECTURE, DESIGN,
INDUSTRY AND SKILLED TRADES

The initial 40 colours in the **RAL CLASSIC** colour collection have increased over the decades to the current 216 shades and it is continually being adapted to the changing requirements of public institutions and private industry. The **RAL CLASSIC** collection includes shades which are used by public institutions and almost every sector of private

industry or serve a higher public interest. In addition to the original application in the field of standardisation of industrial processes as well as its use in the public sector, designers from a wide range of disciplines in more than 150 countries and on every continent now rely on the variety of the colour collection.

- ✔ Including a large poster
- ✔ Displayed in RAL DESIGN SYSTEM *plus* colours

 **Order now >**

USING COLOUR EFFECTS SYSTEMATICALLY

How are "honest", "likeable", "tactless" or "endless" reflected in worlds of colour? "The Colour Dictionary" is an essential source of inspiration and the standard work for interior design, advertising, design and teaching.

BOOK COLOURS FOR MIND, BODY & SOUL

Colours elicit emotion, give direction, create space for wellbeing and are therefore much more than merely a decorative element. In his book "Colours for Mind, Body & Soul", the colour researcher and designer Professor Axel Venn takes the scientific approach of colour psychology and puts it in the context of lifestyle and well-being.

- Hard cover 2018 edition
- Format: 23.3 x 3 x 27.3 cm
- Bilingual: DE, EN
- 320 pages filled with inspirations for design in practice
- 24 adjectives from the fields of wellbeing, health and recuperation
- Scientifically researched
- 760 colour illustrations
- With draft template to develop your own colour collections
- Coded in RAL DESIGN SYSTEM *plus*
- ISBN: 978-3-95961-227-2

RAL DIGITAL

THE RAL COLOR READER –
THE PERFECT COLOUR MEASUREMENT FOR PROFESSIONALS.
PRECISE, SIMPLE, COMFORTABLE.

Thanks to its precision, the **RAL COLOR READER** is exactly the right tool for professional colour users. The device will already impress you during the first colour scan with its measuring accuracy of 92 %. The **RAL COLOR READER** has a highly developed optical lens and six white LEDs with a high CRI value. The powerful LEDs isolate colours and illuminate them equally, enabling you to obtain an accuracy

measurement even at the first attempt. It doesn't matter whether measuring wall or floor colours, the colour of a piece of furniture, plastic or textiles, whether the colour is matt or has a metallic effect, plain colours or samples. The colour measuring device will provide the right RAL shade even on the smallest surface.

RAL ACADEMY

FURTHER TRAINING IN COLOUR DESIGN
AT THE HIGHEST LEVEL

The seminars at the **RAL ACADEMY** on the subject of colour and colour design are aimed at all professional groups from the areas of architecture, design and trade who want to expand their knowledge of colour and be perceived by their customers as experts in this field.

Specialists in colour design always keep their expertise up to date. **RAL COLOURS** is supporting them in this and connects modern scientific knowledge with long-term experience in training and development of colour designers at a very high level.

RAL ACADEMY

- ✔ Training and development for professional colour users
- ✔ Workshops & seminars as well as shop and studio talks
- ✔ Getting to know and using RAL products
- ✔ Insights into colour design, theory & practical exercises
- ✔ Top-class speakers and course instructors

The courses range from one-day workshops and seminars to two-day workshops and shop and studio talks. Participants not only get to know and learn how to use the diverse world of RAL products but also gain profound insights into the world of colour design and connections between light and colour.

Lecturers and course managers from education, industry and architecture impart their knowledge via lectures, workshops, presentations, practical exercises, experiments and discussions. With the RAL ACADEMY events, the colour and design expertise of the participants will be expanded. At the same time, the academy will establish connections between different professional groups dealing with the topics of colour and colour design.

Further information about the topic of training and development at RAL COLOURS can be found at www.ral.de/akademie-uebersicht

PLANK: The MIURA stool, designed by Konstantin Grcic, is available in many RAL colours. RAL 7021 Black grey, RAL 9002 Grey white, RAL 3020 Traffic red, RAL 2004 Pure orange, RAL 1027 Curry, RAL 3009 Oxide red and RAL 5023 Cobalt blue underline its dynamic shape.

LASFERA: The lamp is available in RAL colours and can be individually designed by the customer himself.

POPSTAHL: Since Popstahl was founded, Ralf Weissheimer has been working successfully together with RAL COLOURS - this is how modern design meets proven standard.

INSPIRATIONS

EHRET: The atrium of Oranienburg district court fitted with nearly 150 shutters in different RAL colours.

OPINION CIATTI: modern furniture in RAL colours RAL 5002 Ultramarine blue, RAL 5005 Signal blue, RAL 5012 Light blue and RAL 4006 Traffic purple.

MÜLLER MÖBELFABRIKATION: The Mobile Line mobile pedestals are available in all RAL colours according to customer requirements.

OTTO KIND GMBH & CO. KG: Numerous detailed solutions provide space for completely new ways of working. Ergonomics as the cornerstone for productivity.

AUER PACKAGING: The transport containers from Auer Packaging are available in many RAL colour tones.

BRIG RIGID INFLATABLE BOATS: A boat with individual paintwork: The Ukrainian BRIG rigid inflatable boats are custom-made and produced individually in RAL colours.

INSPIRATIONS

NBK KERAMIK: 140,000 ceramic elements in six different colours: RAL 070 70 80, RAL 050 50 70, RAL 050 50 78, RAL 000 75 00, RAL 110 60 50 and RAL 7035 Light grey.

CITY GATE BREMEN: Development of a colour concept with the colours of the RAL DESIGN SYSTEM *plus*. Development and implementation: Pagels Farbkonzepte, Düsseldorf
